OBJECTIVE

Research and Software Development professional specializing in software Architecture Design and Development in Web Applications, Data Science. Hand-on development experience with SDLC, Agile and Scrum, seeking opportunities to contribute to organizational success and further professional growth.

TECHNICAL SKILLS

Programming Languages	• Python, PHP, Java, Dart, Swift, C, C++, JavaScript, HTML, CSS
Framework and Libraries	• Django, FastAPI, Laravel, Flutter, TypeScript, jQuery, Vue.js, React.js
Database Languages	• PostgreSQL, MySQL, MSSQL, NoSQL (e.g. MongoDB, Google Firebase)
NLP and ML Libraries	• TensorFlow, Pandas, Numpy, Excel, SciPy, Scikit learn, PyTorch
Version Control	• GIT, GitHub, GitLab
Tools and IDE	• Visual Studio code, Android Studio, IntelliJ Idea, PyCharm, Xcode, Jupyter Notebook
Additional Knowledge	• MQTT Broker, Jira, Slack, AWS, Docker, REST API, Linux, Cryptography, Google Cloud, Google APIs

RESEARCH AND SOFTWARE DEVELOPMENT

December. 2024 – Present

- **Research Assistance - Web Application Development**
 - Organization: Becker Lab University Rostock, Germany
 - Responsibilities : Research MQTT technology and contribute to develop web applications for collecting, visualizing VR sensors, IoT messaging analytic data
 - API development with JWT web token authentication with SSL connection
 - Data Processor for publishing and receiving IoT & VR data
 - Front-end development for visual representation of analytical information
 - Writing project documentation
 - Technologies: Python, Django and FastAPI, Vue.js, PostgreSQL, MQTT
 - Supervisor : Prof. Dr. rer. nat. Martin Becker, Rostock University

March 2022 – April 2024

- **Senior Software Engineer**
 - Organization: Asloob Bedaa Contracting Company, Kingdom of Saudi Arabia.
 - Responsibilities : I had contributed the development of Payroll, Inventory, HR and Attendance module of ERP system. Now 3,000 employee's salary has been generating that reduce 70% task of accounts and reducing worker absence by 70% .
 - Manual system & requirement analysis, database design, web development, testing, deployment and maintenance through agile methodology. Managing code using Git by creating, merging branches, resolving conflicts.
 - Development of API for future mobile application.
 - Writing project documentation.
 - Technologies: PHP (Laravel), Vue.js, TypeScript, Bootstrap, MySQL, Store procedure, ORM, Query Builder. Docker container.
 - Projects:
 - Enterprise Resource Planning (ERP)
 - Asloob Bedaa website
 - Asloob Internation website

Oct. 2018 – Dec. 2021

• Full Stack Web Developer

- Organization: Texon Limited, Bangladesh
- Responsibilities: Working with development teams and project managers to ideate software solutions. System analysis, requirement analysis, database design and development of scalable software. Writing clean, functional code on the front-end and back-end. Unit Testing and fixing bugs or other coding issues.
- Projects:
 - Inventory System (Web & Desktop Application),
 - E-commerce web Application
 - Property Management web application
 - Company website

Jan. 2017 – Sep. 2018

• Software Engineer - Mobile Application Development

- Organization: Proficient Information System, Bangladesh
- Responsibilities: Mobile apps UI design, development, code review, features testing, bug fixing, problem solving, algorithm design, team works and deployment of native iOS application in AppStore.
- Contribution:
 - Future Vault
 - E-Commerce App

Oct. 2014 – Dec. 2016

• Software Engineer - Mobile Application Development

- Organization: W3 Engineers Ltd, Bangladesh.
- Responsibilities: R&D of websocket, TCP and UDP connection, WIFI direct (Hyper network) local network community with chat and media sharing. UI design, Actively working with the back-end team. Experience in back-end web services of REST API, AWS S3 Bucket, Firebase and Microsoft Azure.
- Contribution:
 - <https://apps.apple.com/us/app/jigglemed/id1387747534> ,
 - <https://apps.apple.com/us/app/peemz-le-shopping-connect%C3%A9/id1234178864>
 - <https://apps.apple.com/fr/app/le-bonbon/id891692090> ,
 - <https://apps.apple.com/fr/app/planet-sushi/id1268650217>

PROFESSIONAL COURSES AND CERTIFICATIONS

- Microservices: Design Patterns
- Agile Project Management with Jira Cloud
- Tech on the Go: From Software Developer to Architect
- Understanding, Using, and Securing Crypto and Digital Assets
- Test-Driven Development in Django,
- Django Features and Libraries
- GraphQL Essential Training

ACADEMIC RESEARCH

Jan. 2014 – June. 2014

• Bachelor Thesis

- Title : Image Processing on Altered Finger Print Analysis and Detection
- Organization: Dhaka University of Engineering & Technology, Bangladesh
- Description : Classifying different sections
- Platforms : Matlab, Mathplotlib
- Supervisor : Md. Mahbub Alam, Assistant Professor, DUET
- Result Grade: 3.5 out of 4

EDUCATION

SoSe 2024 – Present

• Master of Science in Computer Science International

- Major: Machine learning, Data Analysis, Artificial Intelligence, Requirement Engineering, Distributed Algorithm, Database Systems, Data Warehouse, Distributed System and Management, Network Security.

Jun. 2010 – May 2014

- **Bachelor of Science in Computer Science and Engineering**

- Dhaka University of Engineering and Technology, Bangladesh
- Major: Programming C, OOP (C++), Data Structure & Algorithms, System Analysis, Software Engineering, Networking, Database Management Systems, Software Development, Distributed & Parallel System, Network System.
- Grade: 3.22, Scale: 1.0 - 4.0, Maximum : 4.0

LANGUAGE

English: Fluent

German: A1
