DIGITAL SKILLS

- | | | |
|-----------------------|---------------------------------|--------------------------------------|
| ✓ Php (Laravel) | ✓ Responsive Frontend | ✓ MySql, PostgreSQL, MSSql, |
| ✓ Python (Django) | ✓ Backend REST API | ✓ SQLite, Firebase |
| ✓ JavaScript, jQuery | ✓ Token authentication | ✓ Store Procedure, Indexing, Trigger |
| ✓ Node.js, TypeScript | ✓ Vue.js, Bootstrap-5, SCSS | ✓ ORM, Query Builder, Eloquent |
| ✓ Axios Request | ✓ HTML-5, Material UI | ✓ Deep knowledge of OOP |
| ✓ PHPUnit Testing | ✓ GIT, Basic CI/CD pipeline | ✓ JIRA, Slack, TDD |
| ✓ iOS, Swift, Xcode | ✓ Docker Container | ✓ Design Pattern |
| | ✓ Third party tools integration | ✓ AWS, Microsoft Azure |

EDUCATION AND TRAINING

MSc in Computer Science, University of Rostock, Germany

May 2024 to Ongoing

Object Oriented Programming (OOP) - ASP.Net (C#) Track

Oct 2013 to Feb 2014, BITM, Bangladesh

Bachelor of Science in Computer Science & Engineering, DUET, Bangladesh

May 2010 to June 2014

Diploma in Engineering (Computer Technology) Technical Board (BTEB), Bangladesh

Sep 2005 to Mar 2010

PROJECTS(<https://iamrashed.3iengineers.com>)

Enterprise Resource Planning (ERP)

SDLC steps are used to develop the ERP software from analysis to deployment. Using database design rules made a db schema and worked through agile methodology. I used PHP (Laravel), Vue.js, JavaScript, Typescript, Ajax, Axios http request, docker, Bootstrap, MySQL. DB operations are eloquent, query builder and store procedure.
